Jnana Prabodhini Dhamaal Shibir at Pawar Public School Nanded City

Pawar Public School, Nanded City believes in overall development of the students by balancing academics, and extra-curricular activities with the help of, sports & state of art infrastructure within the campus. For this, the school conducted a one-day shibir camp organised by Jnana Prabodhini for students of standard 7th to 9th. The day started with assembling kids by dividing them into groups of 13. The names of groups were Sindhudurg fort, Visapur fort, Malhar Gad fort, Panhala fort, Purandar fort. One volunteer from Jnana Prabodhini was assigned to each group. This helped to develop a special bond within them. They facilitated the children to participate in various activities. Language and talent games, group activities stories, Prabodhan songs, observation, memory, reading, writing, listening, drawing, painting, expression, leadership skills treasure hunt games, art and craft like straw whistle, paper planes, boy decoration were the keys area for the youth boys. The camp also proved to be a remarkable experience offering wealth of opportunities for young learners. The activities will enable them to think critically, innovate, communicate and become change-makers.

They were then taken on the playground for traditional games like langadi, ten passes, hand ball, mind mapping and relay.

At the end a prize distribution was held to motivate the kids. A quiz on Chatrapati Shivaji Maharaj was organised. The rigorous well-planned training for youth boys should work for nation building. This was the ultimate aim of the camp. It also emphasised on experiential learning, individual development, social development, team work, collaboration and communication as per NEP 2020.

All the students and faculty members were very excited and full of enthusiasm for the camp.
